

CRESCENT PARK
WATER EMERGENCY UPDATE
June 17, 2016

The water system has remained stable at Crescent Park. The Boil Water Notice and the water restrictions are still in effect. A water test was taken on Wednesday and the results are expected on Monday. Once these results are considered acceptable and conditions are normal, the restrictions will be lifted.

The potable water truck remains parked at 50 Morris Avenue.

Updates will be listed on the West Milford website (www.westmilford.org) under “News” as they become available.
