**The survey is only open
until December 1, 2023!**

The 2023 Passaic County Community Health Needs Survey aims to take a deep dive into the health profile of Passaic County adults and the factors influencing health in the community. This survey will play a crucial role in shaping public health policies and programs by providing valuable insights into the health needs and challenges faced by the local population.

The Passaic County Department of Health Services, as well as our local municipal health departments, will utilize the data collected from the survey to identify themes, patterns and trends to influence future planning and delivery.
